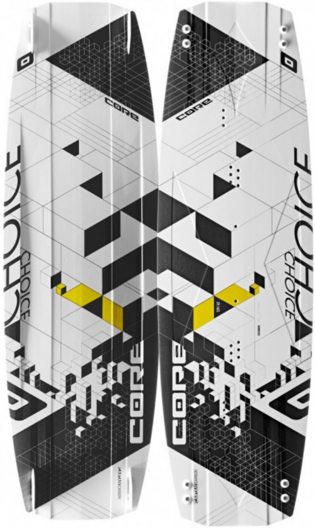
FREESTYLE + | FREERIDE | WAKESTYLE



STRAPS.
OR BOOTS.
YOUR CHOICE.

The many faced freestyler. Whether it's stomping a big rail in boots or slamming a railey in straps. Or simply freeriding the Planet of the Apes. The new, lighter, Choice 2 offers endless possibilities to experiment and make your own style.

THE ALL-IN-ONE FREESTYLER

The Choice 2 builds upon its predecessor's strength by extending the CNC milled Paulownia wood core closer to the edges to reduce weight and increase reflexivity. Revised channels and Vario Rails give you the grip and control you need with or without fins. And its moderate freestyle rocker will get you out of trouble on those not so perfect landings. CORE's proprietary 30° biaxial carbon fiber weave further optimizes board torsion and dynamic longitudinal flex. For more pop. And silly grins. Boots or straps. Finned or finless. There really is no other Choice.

The next gen Choice 2. Freestyler Extraordinaire. Freerider fun machine.

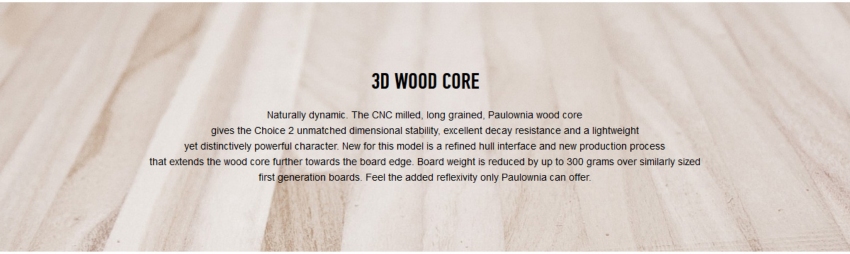
FEATURES

- CARTAN® CARBON
- 3D WOOD CORE
- VARIO RAILS
- DIAMOND 3D-SHAPE
- MULTI-CHANNELS
- V-SHAPED KEEL
- PRO ROCKER
- BOOT TOUGH INSERTS
- G10 PRO FINS (42MM)
- UNION PRO PADS & STRAPS
- UNION COMFORT PADS & STRAPS
- G10 WAKE FINS (28MM)

KEY FEATURE SNAPSHOT

CARTAN® CARBON

The Choice 2 takes full advantage of our proprietary, high performance, 30° biaxial carbon fiber weave that optimizes board torsion and dynamic longitudinal flex. The build process also requires less resin thereby reducing swing weight. This means bigger pop and better durability.



3D WOOD CORE

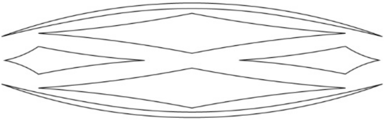
Naturally dynamic. The CNC milled, long grained, Paulownia wood core gives the Choice 2 unmatched dimensional stability, excellent decay resistance and a lightweight yet distinctively powerful character. New for this model is a refined hull interface and new production process that extends the wood core further towards the board edge. Board weight is reduced by up to 300 grams over similarly sized first generation boards. Feel the added reflexivity only Paulownia can offer.

VARIO RAILS

Variable rail thickness. For better control. The Choice 2 features 9.5mm shaped rails near the center of the board that reduce down to 3mm on the tips.

DIAMOND 3D-SHAPE

Diamond shaped perfection. Take a close look at the Choice 2's surface contours. On the tips and around the grab handle, the surface is milled in the shape of diamonds. The refined contours reduce weight and direct torsional forces to the fins and edges where you want them for a perfect balance between flex and rigidity.



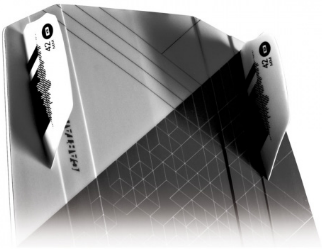
CHOICE
CORE

MULTI-CHANNELS

Extreme grip even without fins. New for this year is a wider tip profile and refined multi channel design. The Choice 2 retains the original's full-length channels and added two additional 3/4 length channels that, together, create amazing lateral resistance. Progressive tip channeling is also largely carried over. So, go ahead and ride finless!

V-SHAPED KEEL

Inspired by the legendary handling of deep V powerboats in rough waters, CORE integrates a progressive V-shaped keel into the tips of the board to penetrate chop and smooth your ride.

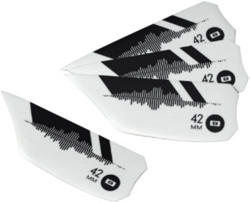


PRO ROCKER

The Choice features a moderate, freestyle rocker for those off center landings. And yet, is deliciously fun when you are not “in training” mode. Go hard. Or easy. Either way, you’ll love your Choice 2.

BOOT TOUGH INSERTS

Bombproof hold for fixed boot bindings or straps. The stainless steel V4A thread inserts are laminated in a massively reinforced base plate deep within the board. The inserts feature three different stance options.



42MM G10 PRO FINS

A beautiful balance between resistance when you need it and the loose-ness you look for in a freestyle board. Too much fin for you? No problem. We also sell optional 28mm wake fins. Still too much? No problem. Go finless and enjoy the ride.

ACCESSORIES

CORE PADS & STRAPS

UNION PRO 2 (S/L)

Upgrade to our new Union Pro 2 pads & straps with 3D Stance. What is 3D Stance? In addition to three longitudinal positions and eleven different foot angle options, the new footpad features six steps of fore/aft adjustment to bring the pad closer/further away from the edges. The slightly thinner orthotic EVA footpads with its “toe grabber” 3D surface will hold your feet securely even on those off-balance landings. Similar customization options are found on the improved straps to give you the perfect fit even with booties on! The dual velcro strap design features tool-free pitch, longitudinal and height adjustments to support your foot precisely. We lined the strap interior with EVA and neoprene while protecting the exterior with durable synthetic leather. Ride happy. Ride Union Pro 2.

UNION COMFORT

Basic yet essential for maximum stoke. The newly developed, ergonomic, shock absorbing, foot pad will give you the confidence to push your limits. The “Diamond Wedge EVA” memory foam, “toe grabber” footbed, and single Velcro strap will hold you firmly and comfortably in all conditions.

28MM G10 WAKE FINS

Designed to take a beating and then some. The wake fin’s moderate slope and optimized trailing edge is perfect for your next wakestyle session. It’s not too big to get in the way yet grippy enough for more technical moves.
